

The determination to fight scientific espionage sometimes goes over the top. Consequently, some “false positives” have been prosecuted recently. (p. 18)

Ueli Schibler and his group from Geneva University recently revealed the heat-shock factor HSF1 as a key regulator of circadian rhythm in liver cells. (p. 28)

In 1990, Lithuania became the first Soviet republic to declare its independence. We talked with Algis Markauskas of biotech supplier Fermentas, on enzymes and capitalism. (p.42)

No one in a laboratory can afford the luxury of wasting time. Steven D. Buckingham presents ten simple time management guidelines. (p.50)
